PETITION UNDER 37 CFR 1.181

Commissioner for Patents
Alexandria, VA 22313-1450

Dear Sir:

In response to the Notice of Abandonment dated September 6, 2005, Applicant respectfully requests a withdrawal of the holding of abandonment. The office action dated January 17, 2005 was sent to an address in Texas and was never received by this office.

Applicant attests that a thorough search of the file jacket has been done and there is no indication that the office action was ever received.

Interestingly enough, although a response to an office action dated August 27, 2004 was filed by this office on September 27, 2004 and a Power of Attorney and Change of Correspondence Address form was filed on October 11, 2004, a search of the PAIR system on March 20, 2006 revealed that a final office action was apparently mailed on January 27, 2005 with a Notice of Abandonment following on September 6, 2005 *again mailed to the wrong address in Texas, of which we have no knowledge of or connection with.*

CASE NO.: 50R4741

PATENT
Filed: August 31, 2001

Telephone calls to the Examiner were made on March 20, 2006 and again on March 22, 2006 to discuss the withdrawal with no response.

Applicant further attests that a search of counsel's docket records indicates the office action was not received. The enclosed docket (our item 1168.137) indicates "OA response filed via fax 09/27/04. Power filed 10/11/04" and status that has since been added to account for these proceedings.

Enclosed herewith are the following:

1. A copy of the Notice of Abandonment;
2. A copy of Final Office Action dated January 27, 2005;
3. A copy of the Power of Attorney and Correspondence Address Indication Form as filed October 11, 2004; and
4. A copy of the docket maintained by the attorney of record for the Applicant

— The MAILING DATE of this communication appears on the cover sheet with the correspondence address—

This application is abandoned in view of:

- Applicant's failure to timely file a proper reply to the Office letter mailed on 27 January 2005.
 - A reply was received on _____ (with a Certificate of Mailing or Transmission dated _____), which is after the expiration of the period for reply (including a total extension of time of _____ month(s)) which expired on _____.
 - A proposed reply was received on _____, but it does not constitute a proper reply under 37 CFR 1.113 (a) to the final rejection. (A proper reply under 37 CFR 1.113 to a final rejection consists only of: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114).
 - A reply was received on _____ but it does not constitute a proper reply, or a bona fide attempt at a proper reply, to the non-final rejection. See 37 CFR 1.85(a) and 1.111. (See explanation in box 7 below).
 - No reply has been received.
- Applicant's failure to timely pay the required issue fee and publication fee, if applicable, within the statutory period of three months from the mailing date of the Notice of Allowance (PTOL-85).
 - The issue fee and publication fee, if applicable, was received on _____ (with a Certificate of Mailing or Transmission dated _____), which is after the expiration of the statutory period for payment of the issue fee (and publication fee) set in the Notice of Allowance (PTOL-85).
 - The submitted fee of \$_____ is insufficient. A balance of \$_____ is due.
The issue fee required by 37 CFR 1.18 is \$_____. The publication fee, if required by 37 CFR 1.18(d), is \$_____.
 - The issue fee and publication fee, if applicable, has not been received.
- Applicant's failure to timely file corrected drawings as required by, and within the three-month period set in, the Notice of Allowability (PTO-37).
 - Proposed corrected drawings were received on _____ (with a Certificate of Mailing or Transmission dated _____), which is after the expiration of the period for reply.
 - No corrected drawings have been received.
- The letter of express abandonment which is signed by the attorney or agent of record, the assignee of the entire interest, or all of the applicants.
- The letter of express abandonment which is signed by an attorney or agent (acting in a representative capacity under 37 CFR 1.34(a)) upon the filing of a continuing application.
- The decision by the Board of Patent Appeals and Interference rendered on _____ and because the period for seeking court review of the decision has expired and there are no allowed claims.
- The reason(s) below:

DETAILED ACTION***Response to Amendment***

- This action is in response to the request for re-consideration filed on 12/1/2004.
- As per applicants request claims 1-20 have canceled and new claims 21-28 have been entered.
- As per applicant's request canceled claims 1-20 stand rejected under 35 USC 102(e) as being unpatentable over *Lee et al* USPN 6,374,177.

Applicant argues,

- I) "Uploading the claimed service information, gleaned from an XM radio broadcast to the internet and receiving back information".
- II) "Sending information from a radio broadcast of any kind to the internet for correlation to others".

Response to arguments,

I) It was noted that the cited prior art teaches multimedia devices will be able to receive existing analog, AM, FM and TV audios broadcast and wireless internet receiver can receive thousands of digital broadcasts from the internet in addition satellite broadcaster such as CD radio, XM radio and world space are expected to transmit to vehicles" see columns 1-6.

Therefore, limitations are met by the reference and claims stand rejected.

II) The cited art also discloses radio broadcast of any kind to the internet for correlation to others by selecting the desired major category by pressing the up or down channel selector button. The user could then see all the channels available under that subcategory in similar fashion and select any of them to play (see column 9, lines 25-67). Thus, the limitations have

Page 3

Art Unit: 2124

been suggested by the art that correlation have established in radio transmission as well in internet environment. Therefore, claims stand rejected.

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 21-28 are rejected under 35 U.S.C. 102(e) as being anticipated by *Lee et al* USPN 6,374,177.

Regarding claims 21, 24, 25 and 26

Lee et al teaches,

- receiving at a client device, from an XM radio, service information related to an XM radiobroadcast the service information containing at least one of: product identification, artist name, song name, broadcast name, the client device being configured with a

firewall (see abstract, see figures 1-3 and 5, column 2, lines 13-32, "new multimedia devices... broad geographic areas").

- receiving at the client device, from a user input device, a signal representing the service information (column 9, lines 25-67, "user could select.... Station to play")
 - sending at least portions of the service information to a server computer over internet (column 10, lines 40-48, "internet gateway... to the vehicle");
 - correlating the service information to information related to the service information (column 9, lines 25-67, "user could select.... Station to play");
- receive, at a client browser plug-in as-associated with the client device, at least an identification of an internet since at which the information related to the service information can be located (column 10, lines 24-29, "something that being broadcast... being advertised") and;
- using the identification of an Internet site causing a browser associated with client browser plug-in to retrieve the information related to the service information without causing the firewall to block the information related to the service information (figure 3).

Regarding claims 22, 27 and 28

Lee et al teaches,

- the identification of an Internet site is received from an application associated with the client device (column 2, lines 53-59< 'specific program... radio station').

Application/Control Number: 09/944,655
Art Unit: 2124

Regarding claim 23

Lee et al teaches,

The correlating act is undertaken at the server computer (see figure 3).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
